SKILLS

■ Innovator ■ Problem Solver ■ Adaptability ■ Leadership ■ Self-Motivation ■ Teamwork
■ Communication ■ Creative ■ Decision Making ■ Focused ■ Connections ■ Dedicated

PROFESSIONAL EXPERIENCE

20 IS/INTJ: Senior JASSM Civilian / INX: Innovation Lead / 03-2015 to Present

- Develops and integrates Joint Targeting and Geospatial Intelligence (GEOINT) capabilities and mission growth. Maintains comprehensive range of intelligence research methods and techniques to capture and fuse intelligence from multiple sources making recommendations in Intermediate Target Development. Communicate program, analyst, and system requirements to senior level audience for decision-making purposes. Only 363 Intelligence Surveillance and Reconnaissance Group (ISRG) Civilian to hold and maintain four mission qualifications.
- Senior advisor, primary consultant, and technical authority on the Joint Air-to-Surface Standoff Missile (JASSM). Coordinated multiple POTUS directed missions resulting in the first operational employment of the JASSM. Understanding of complex issues, led to creation of new targeting methodology adopted by two Air Operations Centers for dynamic events. Additionally, knowledge of Joint inter-relationships and operations, initiated the development of a Bomb Impact Assessment Dashboard resolving Battle Damage Assessment shortfall.
- Defines, establishes, and directs organizational focus on programs as an adviser and consultant to JASSM and Innovation team-members. Identify critical error trends and developing process improvements resulting in 20% reduction in recurring errors. Resolves and coordinates issues on multiple projects to include participation in meetings, workshops, and events.

20 IS / INTJ: JASSM Subject Matter Expert / Leidos (Cntr.) / 10-2013 to 03-2015

- Rendered knowledgeable and accurate changes influencing both the 363 ISRG's Standard Operating Procedure and Qualification Training Program changes as the primary trainer for both JASSM Modelers and QCs covering basic and advanced Terminal Area Model techniques.

31 OG / MPC: Targeting Analyst / Aviano AB, Italy (Enlisted)/ 10-2010 to 09/2013

- Produced detail analysis of complex information and situations from multiple sources in support of the international military operations for Odyssey Dawn and Unified Protector by generating terrain graphic packages and tactical maps in support of coalition operations.

20 IS / INTC: Weaponeering Analyst / (Enlisted) / 07-2009 to 09-2010

- Communicated effectively with others and identified squadron limitation, acted as sole curator in designing the Air Force Targeting Center's Conventional Air Launched Cruise Missile Azimuth-of-Attack Calculator which computes possible obstructions ensuring mission survivability.

CERTIFICATIONS / QUALIFICATIONS

- PERFORMANCE MANAGEMENT COACHING COURSE: 04/2018 – 06/2018
- JASSM MISSION QUALIFICATION, QC, IE, & SME: 03/2014 – Present
- AF PRECISE POINT POSITIONING PROGRAM CERT: 10/2016 – Present
- INTERMEDIATE TARGET DEVELOPMENT CERT: 03/2015 – Present
- JOINT BATTLE DAMAGE ASSESSMENT QUAL: 08/2017 – Present

AWARDS

- 20 IS General John P. Jumper Award for Excellence, Civilian for 2018
- 20 IS General Rawlings Award, Team of the Year 2018: INX
- 20 IS Air Force Intelligence Surveillance and Reconnaissance Award Program, Civilian 2017
- 363 ISRG Quarterly Award, CAT II Civilian of the Quarter: 2 x Winner
- 20 IS Quarterly Award, CAT II Civilian of the Quarter: 3 x Winner

EDUCATION

- **Education Experience:** Pursuant of Bachelor of Physics - Currently attending Metropolitan Community College, maintains over a 3.5 GPA, student transfer to UNO in 2019.
